LOUISA, LAWRENCE COUNTY, KENTUCKY, APRIL 4, 1919.

M. F. CONLEY and E. K. SPENCER, Publishers

## ORGANIZATION FOR THE VICTORY LOAN

LAWRENCE COUNTY HEADQUARTERS OPENED AND THE PRELIMINARY WORK NOW UNDER WAY.

Mr. Threlkeld, field agent for the Federal Reserve Bank and the Victory Liberty Loan work, came to Louisa last Friday for the purpose of arranging for a chairman for Lawrence county in the Victory loan campaign now at hand. M. F. Conley resigned soon after the close of the 4th Liberty loan campaign and had declined to reconsider the action. He had asked to be relieved after the 3rd loan, but this request was not granted.

Mr. Threlkeld called a meeting of business and professional men for Friday afternoon. No one present was willing to undertake the task, but all pledged themselves to assist the former chairman in every way possible if he would again take up the work. So it was finally settled by putting the job on him again.

The real campaign will start April 21st and continue three weeks, ending May 10th. The quota has not been announced, but will be about the same as the 4th loan, which was \$132,150.00 for Lawrence county.

While not yet announced it is believed the bonds will run five years and bear five per cent interest.

The local committee has opened headquarters in F. H. Yates' building on Main street next door to C. H. Bromley's shoe store. Patriotic citizens will be welcome there with suggestions and with a tender of their services in this campaign to "finish the job." This will be the last bond issue. It is to pay off our soldiers and the debts incurred in their great and heroic work.

The bonds are non-taxable and therefore are equal to any other kind of an investment paying six to seven per cent.

### INEZ ITEMS

John S. Price arrived in Inez last Friday on a visit to his old home.

On Sunday he occupied the pulpit in the M. E. Church South and preached to a large audience in the morning. At night he preached in the Presbyterian church. John is one of our Inez boys who has "made good" out in other places, but the "call of the mountain" and the "home cup" are too strong at times and so our boys come back to us. Mr. Price has charge of a large Presbyterian church in Oklahoma.

Charles McCoy has returned from a short trip to Louisa and Paintsville.

Mr. and Mrs. G. W. Hale spent a few days in town with relatives.

Miss Maud Hale is visiting Miss Dixie Ward.

Mr. L. A. Dempsey went to Kermit Sunday.

Miss Julia Watterson has returned from Warfield where she has been teaching.

R. L. Hale made a business trip to Huntington last week.

Mrs. Price Parsley and grandson, Carlos, have gone to make their home with Elsworth Parsley in Ohio.

### WALBRIDGE.

Mr. and Mrs. J. Crit See have word from their son Fred that he is now at Camp Taylor and expects his discharge from service soon.

Mrs. Ada Moore and little daughter and Miss Nellie York, of Portsmouth, recently visited relatives here.

Chas. Perrell, of Russell, is visiting home folks.

Misses Marie and Kathleen Holt had as their guest Wednesday last Miss Annie O'Neal of Busseyville.

Wayne See came home Saturday and accompanied his sister Miss Marie to Pt. Pleasant Monday.

Roy L. Peters was the guest of his parents, Mr. and Mrs. G. G. Peters, Friday till Wednesday.

Miss Jock See visited her cousin, Miss Marie See, Saturday.

The infant daughter of Mr. and Mrs. Henry Booth is very ill with double pneumonia.

Miss Fanny See returned Tuesday from a visit with Louisa relatives.

Church services closed here Sunday night.

### MRS. J. R. DIAMOND DEAD.

The death of Mrs. John R. Diamond occurred last Sunday night at her home near Louisa. She had been ill quite a while with pneumonia and recently suffered an attack of influenza from which she never fully recovered. She was 35 years old.

Mrs. Diamond before marriage was Miss Grace Diamond, daughter of David Diamond, deceased. She is survived by her husband and eight children, seven sons and one daughter.

On Tuesday afternoon the funeral service was held at the home by Rev. H. B. Hewlett, of this city. Burial at Smoky Valley.

### JUNIOR LACKEY PROMOTED.

James Q. Lackey, Jr., of this city, who had been in the medical department of army service at Camp Wheeler Georgia, several months, was transferred a few days ago to U. S. A. General Hospital No. 10, Boston, Mass., and reported there this week.

He was recently promoted to sergeant and was one of fifty experienced medical men selected from Camp Wheeler for the Boston hospital where they will help care for the sick and wounded arriving from overseas.

### MISS COLMAN LEAVING.

Miss Colman, teacher of music at the college, will leave Louisa April 14 to return to her home in Kansas. She will stop in St. Louis and Kansas City for a visit with relatives on the way home. Later she is planning to do Lyceum work.

## REV. R. F. RICE ANSWERS THE CALL

Rev. R. F. Rice, one of the oldest ministers in the Western Virginia Conference in point of service and also in years, died at his home near Enslinburg Monday, after an illness of several months. The body was laid to rest in the family burial ground. Rev. H. B. Hewlett preached the funeral and the Old Fellows had charge of the burial service.

He had been a preacher in the Southern Methodist Church for about fifty-four years, continuing his labors until a year or two ago. His age was 79 years. He was quite successful as an evangelist and held many meetings throughout the country districts. His wife and several grown sons and one daughter, Mrs. Jennie Wheeler, of Huntington, survive him.

### IN HUNTINGTON AND ASHLAND.

Mrs. F. L. Stewart and daughters, Miss Vivian Hays and Martha Mayo Stewart were guests this week of Mrs. Inez W. Watson in Huntington. Miss Vivian attended the wedding of Miss Alice Lowe Wilson and Mr. Joseph Gray Estey of Vermont which took place Wednesday evening in the Fifth Avenue Baptist church of Huntington. She is also visiting Ashland relatives a few days.

### LOCAL BOARD MUSTERED OUT.

The office of the Local Board of Lawrence county has been closed and the supplies have been shipped to Washington. The members were mustered out March 31.

44 men were sent into the military service from this county.

### PUREBRED SHORTHORN SALE.

Toke French, one of Lawrence county's progressive farmers, has sold to G. B. Gannon, of Charlotte Furnace, Ky., a purebred shorthorn bull ten months old for \$150.

### BAZAR APRIL 11.

The ladies of the M. E. Church South have decided to confine their Easter bazaar to one day instead of two, as heretofore announced. The date is Friday of next week, April 11th, and the place is the basement of the church.

### AT CAMP TAYLOR.

Wm. May of McVey; H. Paris, Catlettburg; Jerry Holbrook, Yatesville; Delbert Prater, Quicksand; Terman Isaacs, McRoberts, and Hobart R. Rice, Hager Hill, are among those arriving at Camp Taylor this week from eastern points.

### GOOD ROADS BOOSTER.

Mr. Adams of the Ashland Independent, was in Louisa Monday and made an interesting speech to the Lawrence Fiscal Court on the subject of good roads. He also made a talk at the Red Cross meeting at the M. E. Church at night.

### NONAGENARIAN DIES.

At the home of his son, Joe Cyrus near Louisa, Mr. Jack Cyrus passed away last Sunday. He was ninety years of age. His body was taken to Tabors creek, W. Va., where interment took place on Monday.

### FISCAL COURT.

The Lawrence Fiscal Court was in session here this week. The work consisted chiefly of consideration of claims. All members were present.

### SMALLPOX ALL OVER.

The few cases of smallpox in Louisa proved to be very light and the patients have recovered. The girl who came here from Paintsville with the disease has been discharged and returned home.

## CHAS. HATFIELD KILLED IN ASHLAND

CHARLEY MUSIC, CHARGED WITH THE MURDER, ARRESTED NEAR LOUISA FOR HORSE STEALING.

Deputy Sheriff Ed. Taylor made a very important arrest a short distance below Louisa Monday. The man proves to be Charles Music, charged with murdering Chas. Hatfield at Ashland last Saturday night.

The arrest was made upon advice received by telephone, saying that the man had stolen a horse from George Belcher, at Glenwood, Sunday evening just after dark. James Taylor pursued him and found that he had lost his way at Jeff Collinsworth's and become very much confused. He left the horse at that place and was on foot when arrested. He was tried Wednesday and held to answer to the grand jury. He gave the name of Grim in court, but had previously claimed two other names.

Sheriff W. M. Taylor suspected Wednesday that the man was Music, and after consulting the Ashland police by telephone he found the description fitted the man. Confronted with certain facts the man finally admitted his identity and also that he was with the gang that shot Hatfield, but denied having fired the fatal shot.

Deputy Sheriff J. H. Woods took Music to Ashland Wednesday evening and delivered him to the police force.

Music is a desperate character who has been running wild in the Big Sandy Valley for several months. He is wanted for desertion from the army and also for robbing the Prestonsburg post office where he blew the safe. He is also wanted at Garrett for a similar robbery. At Denver Creek Junction he killed 15 or more sacks of mail. He is charged with the robberies at Harold and Black Diamond.

### The Ashland Murder.

On last Saturday night Music and Edward Bradley held up the proprietor of the Bragg Hotel in Ashland and robbed the place, tearing down the telephone and threatening to kill the hotel man if he gave an alarm. Later he notified the police and among those who responded was officer Charles Hatfield. The men were in hiding and shot him fatally. He died a few hours later. Bradley was arrested but Music escaped to the hills.

Hatfield was a native of Lowmansville, Lawrence co., a son of the late Lewis Hatfield, and a brother of Robert and Kenas Hatfield. He was 42 years old, leaves one son, and had been a resident of Ashland for nearly twenty years.

Rewards amounting to about \$1200 had been offered for the arrest of Music. No doubt he will get what is coming to him now.

He is said to be a son of John Music, of Tom's creek, Johnson county.

### ELWOOD HAMPTON, NATIVE OF LOUISA, DIES IN FRANCE

Elwood Hampton, whose death in France was reported recently, was the son of Purla Hampton who died in Louisa a few years ago of smallpox.

Elwood's mother moved to Volga, Johnson county, and it was from there he enlisted for army service. He was a grandson of Mrs. Henson and nephew of Bert Hampton of this place.

### E. K. RAILWAY PLACED IN HANDS OF RECEIVER

Grayson.—The Eastern Kentucky Railway Company has been placed in the hands of a receiver by order of the Carter Circuit Court, Judge Clegg presiding. Vice President and General Manager Sturgis G. Bates, of Riverton, Ky., was appointed receiver and died his bond, which was accepted.

### SALE OF RESIDENCE.

Mrs. T. H. Roberts has sold her residence on Madison street, near the hill, for \$3500 to Dr. Proctor Sparks, who will get possession within a few days. Dr. Sparks is a native of Blaine, and has been practicing his profession there for some time. He has rented an office in the Snyder building, over Burton's store.

Mrs. John B. Vaughan and daughter, Gerry, are visiting relatives in Huntington.

Mrs. Chas. Gould and baby of Buffalo, N. Y., are guests of Mrs. F. T. D. Wallace. Mrs. Gould was Miss Lucy Wood and has often visited Louisa relatives.

The youngest child of Mr. and Mrs. Ambrose Hay of Lock avenue is critically ill with meningitis. He is about a year old.

Mrs. Wm. Remmelte has returned from Huntington, W. Va., where she was the guest several days of her niece Mrs. Dr. Hatfield.

### BLAINE.

Bugler J. N. Holbrook, was called home from Camp Dix, N. J., on the account of the illness of his mother. He has taken his mother to Louisville to the hospital. They were accompanied by his sister, Mrs. Mae W. A. Rice of Fallsburg, and Captain Gambill as far as Webbsville. Also, Dr. Chitt Osborn of Blaine.

Sorry to hear of the illness of Mrs. H. F. Holbrook.

FRIEND.

### CITY COUNCIL.

The regular meeting of the City Council was held Tuesday night. Routine business was transacted.

Several citizens living along the route of the proposed street paving were present. The subject of terms of payment of the property owners was discussed. Most of them agreed to pay their one-fourth of the cost of the paving abutting their property when finished. W. T. Cain and R. C. McClure were appointed to see all other property owners and try to get an agreement to pay for the work when done, instead of having ten-year bonds issued. They are meeting with success in this work. With this point settled, the contract can be let.

### MRS. YATES' BIRTHDAY.

In celebration of her 79th birthday anniversary a number of the friends of Mrs. J. W. Yates spent last Friday afternoon at her home in this city. The Missionary Society of the Baptist church met with her and their program was much enjoyed. Mrs. Hillie Rife and Mrs. F. H. Yates served delicious sherbet, cake and coffee to the guests.

Mrs. Yates was remembered with gifts and greetings from relatives and friends at a distance as well as those who called during the day to wish her many more such happy occasions.

### ON FURLOUGH.

Pvt. Charles R. Holbrook is spending a month's furlough with Lawrence county relatives. He recently re-enlisted for a year's service and will return to the Mexican border. He was in Louisa Saturday. He will report at Brownsville, Texas, April 12.

### Oldest Citizen Dies At Paintsville

Wm. Borders died last Sunday night at his home at Paintsville from the infirmities incident to old age. He was 94 years old and had lived at Paintsville many years.

He was a brother-in-law of Mrs. Cynthia Stewart, of this city, and uncle of Mrs. F. H. Yates. The surviving sons and daughters are John W. Borders, of Flemingsburg; H. Borders, of Nicholas county; Jas. E. Borders, of Fullerton; Mrs. C. M. Saunders, of Flemingsburg, and Mrs. Rec Vaughan, of Catlettburg.

Funeral service was held from the home at 10 o'clock Tuesday morning, conducted by Rev. H. G. Sowards, pastor of the M. E. Church South, of which Mr. Borders had long been a faithful and leading member.

He was also a charter member of the Paintsville lodge of Masons which took part in the burial services. Interment was made in the old Mayo burial ground near West Van Lear by the side of his wife who died some time ago.

## FARM DEPARTMENT

By G. C. BAKER, County Agent.

### Don't Sell Hens.

The following letter written by one of the poultry experts in the field for the College of Agriculture is so timely that the county agent is reproducing it here in full for the readers of the paper:

"The other day I saw a woman drive into a small town with a crate full of hens for sale. Their beautiful red combs and their plump soft bodies told anyone that they were all laying. In fact, a few eggs were in the bottom of the crate as the farmers' wife sold them to the dealer for 4 cents more a pound than she could have gotten last autumn.

"When I saw the money pass hands, I wondered why that woman had fed and cared for those hens all winter long merely to get about a quarter more per head for them. I knew every hen in the crate had eaten twice that amount of corn since last fall. And I wondered too why the farmers' wife didn't realize that even a poor layer would soon shell out 3 dozen eggs which at 30 cents would amount to 90 cents.

"Listen to me. Can't folks see a mite beyond their nose? Those hens should have been kept until summer. By that time they would have paid their feed bill of last winter and then the poor layers could have been picked out and sent to the slaughter.

"Surely the good woman, who 'killed the goose that laid the golden eggs' did not have anything at all on the woman who are selling laying hens this spring."

### Keep Up Preparation.

A first class seed bed for corn or tobacco is about half the cultivation necessary. Perhaps it means more than half cultivation because the cultivation of a crop after it begins to grow depends very largely upon the condition the soil is in when the seed goes into the soil.

Nothing will pay bigger dividends than the constant use of a disk harrow before the seed is sown. It breaks up the soil and a sharp disk harrow will do more toward insuring a good crop than is usually understood. When the surface of the soil is thoroughly pulverized with a disk harrow before it is sown, it allows the dirt to settle properly into place against the subsoil thus allowing the moisture to rise easily.

## CENTENARY MEN ON BIG SANDY

Centenary group meetings at which prominent churchmen from Nashville and elsewhere will be present are announced for three county seat towns in the Big Sandy Valley, all to be held as follows:

Paintsville, Monday, April 14.

Prestonsburg, Tuesday, April 15.

Louisa, Wednesday, April 16.

Dr. S. A. Neblett of Nashville, Dr. F. S. Politt, Stuart Bowman and F. C. Main will be present at these meetings, which will have sessions throughout the day, and at night there will be an interesting stereopticon exhibit and lecture.

At these meetings representatives of all departments of the churches are expected to be present—Three Minute men, local directors, lay leaders, Sunday School Superintendents, and the preachers. These are perhaps to be the last group meetings and all are urged to attend. The Bishops are already saying that the records made by preachers in this Centenary Missionary Movement will play a large part in their standing in the conference.

At the Paintsville meeting all churches in Johnson county are expected to be represented.

At Prestonsburg the meeting is to include Pikeville, Wheelright, Maytown, Dwaile Circuit, Prestonsburg Circuit, Auxier Circuit, Van Lear and Wayland.

The Louisa meeting will have delegates from Inez, Port Gay, Fallsburg, Blaine Circuit and Kavanagh.

In addition to those named above, a welcome will be extended to any church members will be welcomed.

## CATTLE BUYER MURDERED IN KENOVA

Sam F. Allison, a cattle buyer from Virginia, was murdered in Kenova, W. Va., Monday night by two young fellows he met in Catlettburg. They all drank together during the day. That night they went to Kenova with Allison, who was to take a train for his home in Virginia. He was killed about midnight and robbed. John Hammock, age 30, was arrested on suspicion and it is thought the other man will be apprehended. Allison was a man of respectable appearance. He was a Mason and that order took charge of his remains.

Another instance of the work of liquor. Had he not been addicted to it he would be at home with his family to-day.

### THRILLING VOYAGE OF ALEX. GARRED, OF HUNTINGTON

Philadelphia, March 26.—The army cargo carrier Transportation, bringing 24 soldiers, the majority of them wounded, after a series of mishaps such as are seldom encountered by a ship, docked here today. The casual soldiers whose homes are in the south were in charge of Lieut. Alexander Garred, of Huntington, who is an officer in the aviation acceptance park, near Paris, furnished Lieut. Quentin Roosevelt with the airplane in which the latter was shot down by a German aviator. Lieut. Garred and the casuals were picked up at the Bermuda Islands, where they were landed about a month ago by the Horwick Hall, an English vessel, when spinal meningitis swept the Hall's crew. The Transportation's rudder had broken and the shaft snapped. The Quincey towed the Transportation 2,000 miles.

## Pvt. Russ Cordle Writes To His Many Friends

Corre LeHaute, France, March 4.  
Editor Big Sandy News:  
I take the opportunity of writing to my many friends of Lawrence county through your paper as I can't write to them all personally. I am all O. K. and in the best of health. I am with the 25th Division which came to France in June 1918. We were in active service on the 27th of July and remained so until the armistice was signed.  
Our first work was the defense of Alsace Lorraine which lasted from July until September 22nd. Then we went to Verdun where it was more active and it was no trouble to hear the big G. I. cans come whistling through the air anytime—or this is what the boys called them. One day as we were going into the lines I met a colored boy coming from the front. He said, "Say Mr., you better not go up there, for Jerry is sending over them iron foundries and he don't care if he hits you." We did not turn back, but if you had been there I guess you would have seen he was right.  
It was on the 12th of October when we went over the top a little bit north of Verdun. We advanced some 8 or 10 kilometers through an artillery and machine gun barrage, but we gained our objective and held it until we were relieved by the 26th Division.  
I was wounded on the 14th day of October by a piece of shrapnel. The shell struck in the edge of the shell-hole where there was eleven of us boys. It killed one and wounded 7 others. I was one of the seven. Then I left my outfit, was in the hospital for about 35 days, but before I got back to my company the armistice had been signed and they were relieved from the front and were back in a rest camp.  
There are several of us Kentucky boys here in the 11th M. G. Bn.: B. Daniels, Otto Daniels, Philip Bishop and Robert Enyard and myself, from Lawrence county. We are now stationed at Carre, France, drilling some, working some and have school part of the time. We also have a nice Y. M. C. A. hut built here in town which contains a canteen from which we can buy anything we want. We have movie pictures and vaudeville shows about every night which is attended by big crowds of us boys and some times by some French men and women.  
PVT. RUSS CORDLE,  
Co. B, 111 M. G. Bn.

## TWO BLUE EYED GIRLS.

## HOME CIRCLE COLUMN

### A SCORE CARD FOR MOTHER

By Dr. William A. McKeever (University of Kansas)  
Now, Mother, if you have been worrying about your thirteen-year-old daughter and treating her as a humor-sarum renegade instead of a human being, let me advise you to call this girl in and have her assist you in filling out a score card to determine your rank as a mother of such a daughter. Perhaps this will help you to be more patient with her and it may suggest ways whereby you might improve your record. Have her help you as follows:

1. Taking proper care of your own health.
2. Status as a home companion and guide for the children.
3. Attitude toward the school, the church, and the community.
4. Reasonableness in matters of dress and personal appearance.
5. Patience in dealing with the daughter's peculiar desires and tastes.
6. Motherly guidance in the performance of house work.
7. Informing the daughter as to the secrets of life.
8. Home instruction in regard to thrift and frugality.
9. Attitude toward daughter's future marriage and motherhood.
10. Womanly disposition toward society and the nation.

The idea of the first point is to emphasize the fact that the care of personal health is fundamental for motherhood. A sick mother is scarcely ever fair and just in her treatment of the young daughter.  
Point two is intended to emphasize the need of furnishing home entertainment and sociability.  
Number three indicates the need of connecting the home training with that of the great institutions co-ordinate with the home.  
Some mothers dress too shabbily, others too gaudily to be helpful guides and companions to their daughters.  
Every growing girl has a right to her own peculiar fads and fancies, her pastimes and her avocations. Not every mother recognizes this right.  
Some mothers hold their girls overmuch upon the humdrum of house work and make them sick of it all. Others cheat and spoil their daughters by teaching them none of it. Every girl has the right to be taught how to perform all the common duties of housekeeping.  
Mothers should impart to their daughters the simple elements of personal hygiene and should tell enough about the origin of life to satisfy curiosity.  
The best home instruction as to thrift and frugality for the daughter is that given by means of precept illustrated by concrete example in the management of the family budget. The housekeepers of America spend many millions of dollars per day. They need much early instruction in order to become able to handle these vast sums economically. Score closely here.  
The welfare of the nation depends upon the integrity of the common family, and this in turn is very closely related to the compatibility of the man and wife. The mother who is not prepared to teach her growing daughter how to know a good, marriageable man is lacking in her maternal equipment. Of course, much of this training is given in various indirect ways, and is to extend through the so-called teen years of the girl's life.

To mothers largely is due the formation of their children's character. If she is vain and frivolous, wanting in those strong qualities at heart and head, the children will likewise imitate much of her nature; but so much has been written on a mother's great influence over her children that there is but one little thought left to be said. To the toiling and careworn mothers all over the land our heart goes out in deepest sympathy, and I would say where you have good comfortable homes consider yourselves happy, and hold yourselves up with as much dignity as the queens of the earth, for who has a fairer right to the good things of earth than you?

Our sense of the value of the family needs to be rivivited and roused. The family, the great institution of paradise, the scene of purest love, the nursery of infancy, and the stimulus and shelter of all the virtues! Each man and woman has a duty to this end. A homeless civilization is sure to be a santonc one; the vices will flourish and the virtues be nipped by the untimely frost. Back of the good man must needs be the good household. Here and there may be a saint and an apostle won from the dens of vice; but, unless the den be reformed a miracle only can insure the safety of the new convert. In the future, as in the past, the solid and reliable men and women, the leaders in business and society, will be found in the quiet and holy homes of the land.

People who have warm friends are healthier and happier than those who have none. A single real friend is a treasure worth more than gold or precious stones.

All success is a series of efforts, in which, when closely viewed, are seen more or less failures. The mountain is apt to overthrow the hill, but a hill is really nevertheless. If you fall now and then don't be discouraged. Bear in mind it is only the part and experience of every successful man, and the most successful men often have the most failures.

## Only One Corn Peeler, "Gets-It"

Stop Corn Pains; See Corn Peel Off. It is just when a corn hurts that you want to feel relief about getting rid of it. Why take chances of keeping the corn and having the pain grow worse? You'll use "Gets-It."

The Only Peels-Off Way is "Gets-It."

It's anyhow, sooner or later, might as well use it sooner. Then you are absolutely sure that the corn will loosen from your toe so that you can peel the whole thing off painlessly with your fingers, in one complete place—just like peeling a banana. It takes a second or two to apply "Gets-It." There's no fussing or putting. Corn-peels will vanish—that'll keep you sweet, while the "Gets-It" does the rest. Nothing new for corns has been discovered since "Gets-It" was born. Follow the judgment of the millions: use "Gets-It" and be sure to be corn and pain free! You'll say it's magic. "Gets-It" is the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Made by B. Lawrence & Co., Chicago, Ill.

## SERVICE IN BROAD SENSE IS PLANNED BY RURAL PROGRAM

Old-Time "Country Parson" is Passing.

Centenary Survey Emphasizes That Church Must Minister to All Phases of Every Day Rural Life.

Saving children from infantile paralysis, hogs from hog cholera and crops from insect pests are "church services."  
So the new church, the regenerated church of the reconstruction period, understands "service" in the rural districts of America.

The old-time "country parson" is passing.  
In his stead comes the man who knows what to do not only with a Bible and a hymn book, but with a potato bug, a family quarrel, a bad road and a shortage of seed corn.  
The church as a factor in the social, political and economic life of the rural district; religion as practical as well as spiritual service, are not experiments. The new church and the new pastor have proved themselves and found themselves at the same time.

Take the story of Lakeville, Holmes county, Ohio.  
Fresh from his theological studies, Charles M. McConnell went to Lakeville five years ago as pastor of the Methodist church there.

McConnell was sent to Lakeville because the Methodist board of Sunday schools chose it as the least promising "charge" they could find. And the board wanted to experiment.  
The new pastor found a moribund church and an epidemic of hog cholera. McConnell preached dynamic sermons. But he did not neglect to send to the State University for cholera serum.

Two members of the church met some boys later, and conversation veered to the pastor. One was dubious about his theology.  
"I don't know about his theology," said the other, "but I do know that he saved my hogs. I'm for him."

An old church building was for sale at Killbuck, 22 miles away. McConnell bought it in at auction for \$448, hauled it to Lakeville, and in December it was dedicated as the Lakeville Memorial Hall, to the boys

## METHODIST CENTENARY RURAL CHURCH PROGRAM.

Better rural churches.  
Establishment of effective training schools for rural church leadership.  
A nation-wide educational campaign to increase the efficiency of the ministry now in service.  
This is how the Methodist church proposes to rehabilitate rural churches in this gigantic five-year Centenary program.

who went into service. This was the first rural memorial hall dedicated anywhere in the United States.

In the hall is a standard motion picture outfit. McConnell and two of his members bought it, projector, seats and all, for \$1,100, on their own responsibility. Pictures are shown every Saturday night.

The farmers were losing money through ignorance of modern agricultural methods. McConnell arranged with the State University for a series of farmers' institutes.

The institutes were held in the church. Better orchards, better cattle, better crops, were the result.

Through the country are the ruins of abandoned rural churches. The Lakeville church flourishes. But rural churches can not retain McConnell at existing rural church salaries. That is the Gordian knot which the Centenary program for American rural communities is planned to cut.

In the next five years nearly \$11,000,000 of the \$115,000,000 funds provided for in the world reconstruction program of the Methodist Centenary will be spent to put such a man in every rural center in the country. In the Cincinnati area of the Methodist Missionary Centenary (Ohio, southern Indiana and Kentucky) almost one-half million will be spent by the Centenary out of the total of more than two times that sum called for by the survey.

## TO AID VICTORY LOAN

Methodist Centenary Forces Are to Aid Government in Its Big Drive.

The machinery of the great Methodist Missionary Centenary movement is to aid the government in its Victory Liberty Loan campaign. Originally the intensive drive of the \$115,000,000 church campaign was scheduled at dates now included in the loan drive, but as soon as the dates for the loan were fixed, the Centenary officials sent word to Secretary of the Treasury, Mr. Glass, offering the services of the Centenary forces in putting over the government campaign first. This will put at the disposal of the government the aid of one of the greatest church organizations ever formed in America. The church intensive drive will follow from May 18 to 25.

## "A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn. — "About 10 years ago I was..."

"I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

"My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there."

"I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did."

"This last Cardui which I took made me much better. In fact, cured me. It has been a number of years, still I have no return of this trouble."

"I feel I was Cardui that cured me, and I recommend it as a splendid female tonic."

"Do allow yourself to become run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, slenderness, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists."

#### Lawrence County Boy Writes From France

Recey Sur Ouche, France, March 7.  
Editor Big Sandy News:

Well, the 6th Division is in "Sunny France" where it has the record of raining 245 days per year, and expects to start for Germany any day to relieve the 42nd Division known as the Rainbow Division, who lit up Winchester, England, as they came to France. It sure is a scrapping division; but there is none that could lead the 6th, especially the 11th Brigade, if she only had the chance that some of them have had, for it is supposed to be regulars, but has quite a number of drafted men in it and has been replaced a few times. We in the 6th knew if we had to stay over here for a while we would rather go to Germany, but see no use of staying at all. Of course we have men at the head of it that sure ought to know more about it than we do but we have got the French roads fixed up in very good shape now.

I see that some people over there caught the boys in France fighting and tried to see how many indictments they could make against them. Is that right or not?

And there are several little items that I could put in where the A. E. F. boys are not classed as they should be. They tried to take our service stripes from us after we had to do so much as sleeping in the roads in mud, getting rations to eat off our own dead soldiers. I would have been a pretty bird to go home and see my mother with no service stripes on; and some of them just had 30 or 40 days in camp and got a rubber stamp and got out. Their plea was showed too much distinction between the soldiers and they sure do need a distinction showed between them. On my left shoulder I wear a "6" painted red star which denotes the 6th Division and they can have a show to keep me in prison or jail for I sure will wear it. Of course we have got one man over here who will stand by us as he can and he is a man of ability and principle. It is the Commanding General of the A. E. F. for a nickname we call him "Black Jack" Pershing.

We see where several of the boys are going back and the boys of Lawrence county would like to know whether there is any show for them or not.

As this is my second letter to the paper will close. With much love to the Big Sandy people.

#### LEMON JUICE IS FRECKLE REMOVER

GIRLS! MAKE THIS CHEAP BEAUTY LOTION TO CLEAR AND WHITEN YOUR SKIN.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.  
Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

#### TUSCOLA

General March died very hard but he made a fool of April.

J. H. Frasher had the misfortune to have his house and all its contents consumed by fire last Friday morning. His wife was preparing breakfast and he was milking when the fire was discovered. Part of the ceiling falling when Mrs. Frasher saw the smoke and rushing into the room where her two children were asleep she found burning pieces of paper falling on the bed where her children were sleeping. She saved her children, but nothing at all of her household goods. He also lost all his corn, potatoes, meat, harness and saddle.

The stork came to Mr. and Mrs. Arthur Coffee last week and left a very fine boy of which they are very proud.

#### LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Don't hurt a bit! Drop a little Freezone on an aching corn. Instantly that corn stops hurting, then you lift it right out. Yes, mangle!

ANNOUNCEMENTS.

We are authorized to announce E. E. SHANNON, of Lawrence, Mo., as a candidate for Representative in the Legislature from the district composed of Lawrence and Elliott counties, subject to the action of the Democratic party at the primary in August, 1919.

No country or county ever amounts to anything worth mentioning without good roads.

Speaking of slackers, the worst species on the list will be the stay-at-homes who refuse to buy Victory Liberty bonds to finish the job after so many of our boys gave their lives in the work. And there soon will be nearly four millions of the soldier boys back at home to look over the lists of those who have and those who have not helped to finish the job.

Shall we loan the government money enough to feed the soldier boys yet in the service, and to bring them back home, or shall we quit cold new and leave the heroes to get home the best way they may? The Victory loan is for the soldiers who did such wonderful work that the war was brought to an end ahead of all calculations. Let's finish the job. It is up to us.

TELL IT TO HIM

Probably you are worrying about just what excuse you are going to offer the Victory Liberty Loan salesman this campaign in refusing to give him your subscription. Maybe you have several excuses but simply cannot make up your mind which of them is best.

Don't let it worry you for an instant. The country is full of soldiers just back from the front. Thousands of them are coming back every week. Some of them are pretty well shot up, suffering from shell shock, weak lunged from having been gassed, still shaky from trench fever, or minus an arm or a leg or an eye.

They know what this war game was. They saw something of what the Hun did for France and Belgium. They have something of an idea what he would have tried to do for America had he ever got over here.

And they would like to know, doubtless, just why any loyal American will refuse to subscribe to the Victory Liberty Loan, knowing that the American soldier wrote the death warrant for Prussianism and how he fared in doing it.

This armless, or legless, or sightless, or lungless or nerveless returned Yank will be glad to listen to your excuse. Hunt him up and tell it to him. Try all of them on him.

If you can convince him you should have no trouble with the salesman. And if you escape with a whole skin you'll subscribe to the loan.

Believe me, boy, you'll subscribe.

METHODISTS  
CHANGE DATE

CAMPAIGN FOR \$35,000,000 IN M. E. CHURCH, SOUTH, CENTENARY DRIVE WILL BE HELD MAY 18-25.

The date for the Methodist Centenary financial campaign has changed from April 27-May 4 to May 18-25, official announcement of which is being made throughout the length and breadth of Methodism today. Several weeks ago it was found necessary to change the April date in order not to interfere with the Government plans for the forthcoming Victory Loan Drive. The selection of another date has been held in abeyance pending the decision from Washington which was forwarded headquarters of the M. E. Church, South, recently.

The change in this date is of wide import to all Methodists who are, at this time, lining up plans of definite action regarding their part as individuals in the campaign. Dr. W. B. Beauchamp, Secretary of the Centenary Commission, stated today that he and other Centenary workers at headquarters have, through Secretary Carter Glass, pledged the loyal support of all Southern Methodists to the government at this crucial hour and that in settling May 18-25 as a date for the Centenary drive, he knows he will have the immediate and hearty cooperation of all conference secretaries, directors, field representatives and all workers connected with the campaign.

The Methodist Centenary financial campaign is the largest religious campaign undertaken in the history of the world. One hundred and fifteen million dollars is the goal set—Southern Methodists pledging themselves to raise thirty-five million of that sum.

CHINA HAS A VERY  
IMPORTANT ROLE

PRACTICALLY ONE HUNDRED AND FIFTY THOUSAND COOLIES SENT TO FRANCE.

What optimist a generation ago would have thought that backward China would have a hand in the settlement of a world war? But China is having a very important role in the great war that is just being brought to a close. Not as soldiers—fighting men—but as laborers behind the front line trenches. And just so many allied troops have been released for other duties. Practically one hundred and fifty thousand of these coolies have been transported by way of the Suez to France. This work has been done under the direction of the British Government and Church Missionaries. Among these missionaries are many of the Methodist Episcopal Church, South, which is just finishing the details of its campaign May 18-25 to secure \$35,000,000 to further work of the kind that is being done in France and other places.

BANDING TOGETHER TO SPREAD GOSPEL

Nashville, Tenn.—One hundred and forty thousand Southern Methodists have signified their determination to pray for the success of the missionary work of the M. E. Church, South, and for the spread of Christianity throughout the world. These people have not only decided to do this, but have banded together in a league known as the Fellowship of Intercession, each signing a small card which it is thought will make the cause for which they pray more definite in the minds of the signers of the cards.

Dr. S. A. Nehlett, secretary of the Department of Intercession of the denomination, stated to a reporter that the way in which the prayer cards were coming in was an inspiration. From two thousand to five thousand of these are opened in the mail every morning, the number of 140,000 representing the complete total up to date.

FIVE HUNDRED WOMEN WANTED

Nashville, Tenn.—Five hundred young women are wanted at once by the Women's Missionary Council of the M. E. Church, South. They are wanted for services and missionaries of the church in both the home and foreign fields and the best type of womanhood is asked for. Women to whom the desire to serve has come very keenly, women whom the spirit of the hour has gripped earnestly, this is the type with whom the church wishes to make connection for various forms of missionary endeavor.

The particular forms of missionary work open to the young women of the South are in the medical, evangelistic and educational departments in the mission fields. One hundred and fifty are wanted as evangelists and deaconesses; two hundred and fifty are wanted as teachers and one hundred are wanted as doctors and nurses. The call has particularly gone out for young women of college education in order that they may be able to grasp quickly the leadership in the work which the church needs.

The call of these young women is made possible through the Centenary of the church which is being observed this year. A fund of \$35,000,000 will be raised soon, and this money will make possible the sending of many missionaries to Africa, Japan, China, Brazil, Mexico, Cuba, Korea and in the home field.

GALLUP

Our Sunday School at this place is progressing nicely.

Afternoon prayer service was held Sunday at the home of Aunt Sarah McClure conducted by Rev. J. H. Howes.

WILD ROSE.

EVER HAVE IT?

IF YOU HAVE, THE STATEMENT OF THIS LOUISA CITIZEN WILL INTEREST YOU.

Ever have a "low-down" pain in the back?

In the "small," right over the hips. That's the home of the backache. If it's caused by weak kidneys, use Doan's Kidney Pills.

Louisa people testify to their worth. Read a case of it:

"A few years ago I was suffering with kidney weakness and my back was weak and lame. I had a dull, constant ache through the small of my back and was dizzy. I had nervous spells, too, and was generally weak. A few boxes of Doan's Kidney Pills, however, were enough to cure the complaint and they helped me in every way."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Boggs had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

NOTICE TO CONTRACTORS.

Sealed bids will be received at the office of the Clerk of the City of Louisa, Ky., until one o'clock p. m. April 8, 1919, by the City Council of the City of Louisa, for the improvement of several streets being the continuation within the city limits of the Inter-County-Road road from Catlettsburg, Boyd county, to Louisa, Lawrence county, a distance of approximately .76 miles.

The improvement will consist of shaping the road, constructing drainage structures and surfacing it to a width of twenty (20) and thirty-six (36) feet with concrete rock asphalt or bituminous macadam. Selection of the type of road will be made after the bids are opened.

The work to be done involves approximately the following:

Concrete for entrances Class E 1-2-3 17 cu. yds.; Vitrified clay pipe, 10 in. 32 lin. ft.; Vitrified clay pipe, 12 in. 145 lin.-ft.; Curb inlets, 2; Earth excavation 1700 cu. yds.

Concrete Pavement—Concrete paving, 9980 sq. yds.

Rock Asphalt Pavement—Rock Asphalt, 550 tons; Crushed stone or slag, 3500 tons.

Bituminous Macadam—Bituminous Material, 25000 gals.; Crushed stone or slag, 3800 tons.

Plans may be seen and instructions to bidders, specifications and forms of proposal secured at the office of the City Clerk at Louisa, Ky., and at the office of the Department of Public Roads, Old Capitol building, Frankfort, Ky.

A certified check payable to the City Treasurer of Louisa equal in round numbers to 5 per cent of the bid, or a temporary cash proposal.

The right to reject any and all bids is reserved.

R. WILEY, 3t. Commissioner of Public Roads.

EASTER BAZAAR.

The ladies of the M. E. Church, South, will hold their Easter bazaar on Friday and Saturday, April 11 and 12 in the basement of the church.

Your Skirt for Spring

Every Decision That Fashion Has Made is Reflected in Our Delightful Showing

Not for many seasons has there been so much reason for the separate skirt's popularity. So many of the newest coats are short affairs, so the skirt which complements them has much to do with the charm of the costume. Designers have anticipated this phase of the new apparel and have accordingly put forth some of the most beautiful effects that we have ever had the good fortune to select from. The materials offer a wonderful choice and the colorings are especially charming.

MODELS IN BOTH SILK AND WOOL

An attractive model as low as \$8.50, or a beautiful creation at \$45—and all the way between these prices you will find choice patterns.

Don't Neglect Your Dining Room This Spring

Visit our basement and get that new dinner pattern you have been intending to get for so long. You do not have to buy it all at once. Every one of our twenty-five patterns is open stock—you can buy just as little or as much as you want and you can match it for years to come.

For your selection we offer you five Haviland, three Japanese and seventeen English patterns and the prices are not exorbitant either.

THE CHURCHES

Christian Church.  
Preaching by the pastor, Rev. J. H. Stambaugh the first and third Sunday in each month, morning and evening.

FIRST BAPTIST CHURCH  
J. T. Pope, Pastor.

Rev. J. T. Pope, pastor of the Baptist church, and Mrs. Pope attended a reconstruction meeting at Ashland the first of last week. They report a very successful meeting as far as the speeches and sermons of the men from a distance was concerned but the attendance was not large. Dr. Elen Bunker, who was a candidate for the United States Senate last fall and Dr. O. E. Brynn, Missionary Secretary of the Baptist General Association of Kentucky were there and delivered some soul stirring messages. Rev. J. R. Reynolds, pastor of the Washington Avenue Baptist church, Huntington, W. Va., preached a great sermon as it has been the privilege of this writer to hear in many years. After all it is a deplorable fact and one to be very much regretted, that people will treat with such silent contempt so great a program as that one was. If men of such ability and spiritual power as those men above mentioned have will come two hundred miles to speak to the people it is nothing to their credit not to come to hear them. We wonder some times what these efforts are worth and what they will accomplish when so few people give any attention to them.

Last Sunday, March 30, was "Home and Foreign Mission day" in all the Baptist Sunday schools in the Southern Baptist Convention. Our Sunday school made a liberal contribution for those causes. Now let us forget that we gave anything at that time and be just as ready to come again the next time. The ones to come a cross with something respectable the next time. It will be interesting to hear how many thousand dollars were contributed last Sunday by all the Sunday schools of the South. It will be large.

Missionary Society.

The Ladies Missionary Society met with Sister Yates Friday the 28th, that being her 79th birthday. Many of her friends came bringing tokens of their love and good wishes. The subject for the evening was: "The House Beautiful" and "The Margaret Fund." Mrs. J. T. Pope explained the origin and results of each and gave a few gleanings from the Reconstruction meeting at Ashland. Following the closing prayer by Mrs. Vaughan came a pleasant social hour during which most delicious refreshments were served. All honor to Mrs. Riffe who knows just how to make every one feel free and happy. With a hearty handshake and a wish for many happy returns of the day to our genial hostess, all departed feeling that it had been an evening spent for the glory of God and the good feeling of his humble followers.

Those present at the missionary meeting and others who called later were: Mrs. P. H. Vaughan, Mrs. D. C. Spencer, Mrs. Dunlap Waldeck, Mrs. A. Wellman, Mrs. Helen Gearhart, Mrs. Jeff Wilson, Mrs. Geo. Kirk, Miss Lizzie Jackson, Mrs. Wm. Hays, Mrs. Tom Ferguson, Miss Ollie Pigg, Mrs. Stella Conley, Miss Margaret Lowrey, Mrs. F. H. Yates, Misses Martha and Elizabeth Yates, Mrs. Billie Yates, and Mr. Wm. Yates.

WM. R. BARTRAM

M. E. CHURCH SOUTH.

Rev. E. M. Kennison preached a very thoughtful sermon Sunday morning to a good-sized congregation. He read a letter received from Rev. H. O. Chambers, saying the family arrived at their destination, Lineville, Ala., and sending his greetings to the church.

The Centenary speaker at the Sunday School was Mrs. Ella Hayes; at the morning church service M. G. Berry, and at the evening service Miss Opal Spencer. All were good.

The missionary organizations of the church had charge of the service Sunday night, rendering a helpful and interesting program.

Following are the Centenary speakers announced for next week: Sunday School P. L. Stewart, morning service Miss Kate Freese, evening service Mrs. Marie Dixon. Prayer meeting next week Miss Gladys Land.

On Sunday night Mrs. A. M. Campbell, president of the Missionary Society, presided, and opened the meeting by reading a scripture lesson followed by prayer by W. E. Queen. The program included songs by the Juvenile society, accompaniments played by their superintendent, Mrs. J. B. Kinister. A good talk was made by Miss Opal Spencer. Recitation by Ella Marie Kinister. Duet, Misses Opal Spencer and Elizabeth Yates. Reading, Mrs. D. C. Spencer. Solo, Miss Kate Freese. Reading, Mrs. T. W. Shank. Song by choir. The closing number was read by Miss Rebekah Lackey.

Rev. H. B. Hewlett will conduct the services next Sunday morning and Presiding Elder Hollister will preach at night.

ELLEN

The people of Ellen are busy now—this week.

There will be Sunday school at this place the first Sunday in April.

## ABANDONED WESTERN OIL FIELDS FOR RICHER PROMISE IN ZINC ORE

Organization of the Louisville Mansfield Zinc & Lead Syndicate Reveals Business Romance

Dr. T. T. Beeler, Dentist, Then Oil Magnate, Sold Interest in 157 Wells for Bigger Prospects.

Louisville, Ky.—How a business romance, blossoming in the bosom of Mother Earth, led the way to a dream of affluence that is fast materializing, is brought out in the organization here of the Louisville Lead & Zinc Syndicate Company, a corporation the stock of which rapidly is becoming the property of the public. That it is not a romance of the oil fields will be a matter of surprise to those who look largely to the oil well as the fountain of business romance.

Formation of the Louisville Mansfield Lead & Zinc Syndicate follows closely upon organization of the Kentucky Mansfield Lead & Zinc Syndicate, a corporation already on an operating and dividend-paying basis, but the romance goes back eleven years to the oil fields of the west and to a dentist's chair in a small Oklahoma town.

Dr. T. T. Beeler.

In a suite of offices in the Starks Building a small keen-eyed man, trying to make every minute yield its quota of result of an atmosphere of high pressure, knows all about the romance, for he had lived it. He is Dr. T. T. Beeler, vice president of the new LOUISVILLE MANSFIELD LEAD & ZINC SYNDICATE. He is the man who, eleven years ago, while a practicing dentist in an Oklahoma town, became interested in western oil development. With holdings in 157 oil wells after he had become successful in that game, Dr. Beeler had wide opportunities to observe the possibilities and exigencies of that business, or game, as it may rightly be called. He saw men carried up into the realm of sudden riches; he saw hopes fulfilled beyond their own limits. But he saw the other side, too, of the oil game—its uncertainty, and the ruin that this uncertainty brought to some.

One day Dr. Beeler heard about the strike made in the famous Joplin zinc ore district. He began studying the possibilities of the new found opportunity. He reflected that in the oil business, when a well was drilled, no mortal could with certainty tell which of four things would be the result—oil, water, gas or a hole in the ground. He reflected that an oil well, drilled from 1,100 to 3,500 feet in the ground, cost from \$5,000 to \$30,000 before its real promise was known. And then he compared this with data he had gathered about the mining industry, in which nature's store of wealth lies comparatively close to the surface and covers great areas, necessitating, in proportion, a small initial outlay. He applied this comparison particularly to what he had heard about the Joplin-Mansfield fields.

Dr. Beeler was not long in making up his mind. It was two years ago in Kansas City that the project, which is now being carried to every state in the Union, had its inception. Dr. Beeler had selected a partner, severed his connections with the oil fields, and had employed an agent, versed in the technique of such an undertaking, to investigate opportunities in the Joplin district.

But it was by chance that the real opportunity was found. One day, when Dr. Beeler's emissary was fruitlessly bickering with people in the field to which prospectors were already swarming, an old man called him aside.

"If you want to see an unworked locality, I want to show you something," said the old man.

As the result of the investigation and assaying which followed, Dr. Beeler, his partner and several notaries, in all of the public automobiles the nearby town afforded, set out in the late afternoon in what is now the Mansfield district. The chauffeurs and the notaries and all others with whom the party came in contact were bound to secrecy. There were neither automobiles nor notaries available for other possible prospectors.

That was October 16, 1917. In a day or so, the prospectors had secured leases on 18,000 acres of land rich in ore, and had laid the foundation of the project which is now becoming na-

¶ We're away over the \$200,000 mark! We've received checks for stock from States as distant as New York and Texas! ¶ Investors are judging the value of the stock of the Louisville Mansfield Lead and Zinc Company by the record of the Kentucky Mansfield Lead and Zinc Syndicate. That company, already in operation, paid a monthly dividend of 2% in January and 3% in February. The officers and directors of both companies are chiefly the same gentlemen and the newer company has been organized to do just what the other is doing but on a larger scale. ¶ Its holdings are greater, consisting of four tracts of 40 acres each in the Mansfield District, right where the Mother Lode of the great Ozark Lead and Zinc fields comes nearest the surface. We've proven our holdings by drilling. We're already sinking the first shaft for our first mill!

tion-went. They knew that by taking the ore from slight excavations at given points over a given area, that the findings of an expert assayer-geologist would give them the exact extent of wealth which the establishment of mills would produce. Unlike the mere promise of an oil well, the potentialities of a zinc field could be scientifically established. Their reports were secured from A. Arnold, State geologist of Missouri, and Joseph Metcalfe, a London mineralogist and engineer, and showed that tests had proved the expectations of the prospectors.

These geological reports bear out to a large extent a theory which later became current as to the origin of the rich mineral products around Mansfield, Mo. According to this theory, Mansfield, one of the highest points in the district, is the site of a pre-historic volcano. The richest ore is found closest to this center, while the adulterated deposits are found as the distance becomes greater.

Once he had secured rights to the land, Dr. Beeler's plan became known and soon the district was a bee hive of fortune-hunters. But all of the promising land in the vicinity had been leased by Dr. Beeler and his associates and they were ready to launch their project.

Their scheme of operation calls ultimately for the organization of local companies in each of the forty-five states. Each of these corporations will be granted concessions around the reserved portion of the leases which the parent corporation will hold and which will be enhanced in value with the growing activity surrounding it.

The Kentucky Mansfield Lead & Zinc Syndicate was incorporated June 13, 1918. Its capital stock of \$100,000 was quickly sold out. On November 1 it bought its first mill, which soon began operations on the ground, and on February 1 a 2% dividend for January was paid stockholders, following which was paid a 3% dividend for February.

The Kentucky syndicate is made up almost entirely of Kentucky men. Dr. T. M. Crutcher, of Louisville, head of the Louisville Dental Laboratory, is

president, and N. C. Cureton is secretary. W. E. Newbold, of Louisville, is treasurer. Edward J. McDermott, of Louisville, is the corporation's attorney. Dr. Beeler is one of the directors, as is also Dr. Charles A. Funk.

The officers of the LOUISVILLE MANSFIELD LEAD & ZINC SYNDICATE, which was formed February 21, 1918, are the same as those of the Kentucky syndicate except that Dr. Beeler is vice president and J. C. Mahon, well known Louisville business man, is a director. Over half of the capital stock of \$500,000 already has been sold. Offices of the company are at 409 Starks Bldg., Louisville.

The stock is being put out at \$1.00 (par value) per share.

The company's property is in the heart of the Ozark Mountains, Wright County, Mo. One forty-acre tract is located between two mills, those of the Kentucky syndicate, known as the "Pioneer Mill," and of W. E. Caldwell, of Louisville, known as the "Red-bird Mill." This tract is considered one of the best in the district although three other forty-acre tracts are well located and partly tested.

So, as the new LOUISVILLE MANSFIELD LEAD & ZINC SYNDICATE starts its wheels whirling, the business romance of the poor dentist is carried further along its way to the pocket-books and bank accounts of shrewd investors the country over.

### YATESVILLE

The pie social at Yatesville on Saturday evening, March 29th, for the benefit of Bro. Conley, was very successful.

John Damron, Fallshur's new merchant, passed through Yatesville Friday enroute to his home at Irad. He was accompanied by his daughter, Miss Dixie.

Several of the soldier boys are returning and very naturally receiving the glad hand and a welcome from all they meet.

It is with much sorrow the many friends of Uncle Chris Diamond hear the tidings of his sad and very sorrowful death. Mr. Diamond had the misfortune last December of falling and breaking his shoulder and arm and since has fallen into the fire, receiving severe burns. Owing to his being aged and probably not constitutionally strong he never recovered from the injury, death resulting Saturday night at about 9 p. m.

We have noticed in the last three or four letters from Yatesville there have been errors concerning two certain young ladies of the same family. Now, Wyoming Jim, Sunshine and Chicken Little, when we want those names used in your correspondence we will certainly inform you. Probably you don't think we suspect your identity. However, we are going to let the writers of those former letters, in the very polite manner possible, to please not let this or these errors occur again. You know perfectly well to what we refer.

Yatesville is having a fine Sunday School under the very able superintendency of Millard Short. Notwithstanding rain and disagreeable weather there have been but a few Sundays when it has not been fairly well attended. Everybody welcome. Please come.

HELP TO PUT YOUR COUNTY ON THE MAP

### STRONG SPEECH ON GOOD ROADS

BY RODMAN WILEY, COMMIS-  
SIONER PUBLIC ROADS, DE-  
LIVERED AT PAINTSVILLE  
OCTOBER 18, 1918.

The good county of Johnson has been famous for most every good thing except good roads and I am here today to try and interest you in highways which will benefit this county more than anything else in the world except the winning of the war.

The prosperity of every nation rests on its agricultural production. Each and every enlightened Government is considering today the problem of keeping open the lines of communication between producer and consumer. If we Kentuckians, therefore, are to keep pace with the stride of the world, we must look to our responsibilities.

With the wonderful development of the South, that challenges the admiration of the world, good roads are more of a necessity now than ever, in order that we may keep pace with our neighbors who are abreast of the times.

Someone has ably said that today to describe a man's location is merely to indicate his geography. Distance from any place is not now indicated so much in miles as it is in time, and of all the systems of transportation (there being only three) the highway is perhaps the most important because the highways are the feeders of the other two systems, and just as gasoline feeds the motors that drive the aeroplane so do the highways feed the railroads and steamships that carry food for our boys and our allies.

Did you ever stop to think that all the wheat, all the corn, in fact all of the foodstuffs now used by our great armies first pass over the highways?

Just at this time it is not advisable to attempt road work where it is ac-

cessary to ship in materials because our railroads are taxed to the limit, but, in counties like your own, you could build good graded earth roads, well drained, and if properly dragged they would serve your purpose for years to come. As a matter of fact I expect that if a Board of competent highway engineers should make a careful study of Johnson county with a view of making recommendations, looking to a progressive highway program, they would in all probability recommend that earth roads be built.

In the first place you are not financially able to build any higher type of road; in the second place, if macadam or gravel roads should be presented to you, you have not sufficient funds to maintain them, which would mean in the long run that you had enjoyed only a temporary relief, but, it makes no difference what type of road would ultimately be built, it is first necessary to build an earth road. Such roads can be constructed using local teams, local labor and very little material needed for their construction would have to be shipped into the county, besides the money paid for the work is left at home. In other words, if an earth road should cost \$10,000, perhaps, \$9,000, would be paid out for the hire of labor and teams, which would mean in the end that ninety per cent or perhaps more of its cost would be lodged in the pockets of your own citizens. You would then not only have a good road but you would have left in the county among your own people who pay the taxes, the money that it cost, which is something worthy of serious thought.

You have perhaps found out by this time that you cannot have anything unless you pay the bills. Good roads will not come to you without work and money. Since this county has been in existence thousands of dollars have been expended on a system of roads and yet this very day we are talking of good roads. I doubt if you have a single mile of real good road in the county. Such a condition upon analysis is wrong either the county has had sufficient money to properly build roads in all sections or else the money has not been wisely expended. After

looking over the assessed valuation of your county, I find that if the proper authorities should devote to roads all that the law allows them to collect for such purposes, it would amount to a little more than twelve thousand dollars, to take care of hundreds of miles of road. It should not, require much argument on the part of any man to convince the most pessimistic that such a sum of money is insufficient, therefore, one of the first things to do is to secure the funds, and to my mind the best method afforded under the laws of this State at this time is a direct tax. The law now permits the Fiscal Court to authorize an election for an extra tax of 20c on the \$100; \$2.00 on the \$1000 which would mean perhaps a cent or a cent and a half on the acre of land, and to the average man it would be less money than he pays for newspapers, cigars or chewing tobacco. The next thing would be to elect a good engineer to have charge of the work.

Some men seem to think that you cannot afford to pay a fair salary for an engineer if the road fund is small, but I say to you that the smaller the road fund the more necessary is it that you have none other than competent engineers. Jefferson or Fayette county might waste several thousand dollars and still have left a sufficient sum to make a good showing but if you waste several thousand dollars your treasury is depleted, and just as a man endeavors to build up a bankrupt business by securing the best possible man to handle his affairs, so should this county secure the best sort of an engineer.

Whatever is worth doing is worth doing right and it has been my experience that the average man does not object to paying taxes if he knows he is getting a fair return for his money, and the proper kind of a man would not only correctly locate your roads, see that they are properly drained, but he will also see that they are maintained, so that when you get a good road it will be preserved in a high state of efficiency and none but men experienced in the art of road work understand how to properly build and maintain highways.

Right in your own State within a hundred miles of our coal fields where there are sufficient coal deposits to supply the world for decades we had a coal shortage, in fact a coal famine last winter.

It is now practically impossible to leave this county either by wagon or automobile truck and reach a market place of any size. I venture to say that in winter time it would cost more to haul a ton of coal from Paintsville to Ashland, Kentucky, either by wagon, sled or truck, than it would to haul that same ton of coal from Paintsville to Liverpool over the ice, snow and the water. Such a condition is most deplorable in times of peace and almost treason in times of war. Just think how the railroads could be reloaded if it were possible to haul coal to all parts of Kentucky and the same kind of the products of the farm. At least we could haul enough of everything to supply the needs of our peo-

ple and the railroads could very easily take care of everything needed to successfully prosecute the war.

The average man has plenty of sense but the great trouble is that he has not time nor the inclination to stop and think about everything. He naturally looks askance at any proposition where it is shown that he would be benefited; he immediately figures there is a "kicker in the wood pile" but if every man, woman and child would figure for themselves what a good road would be worth to them from their home to the county seat and how little it would cost when distributed among all the people, the question of good roads in this county is solved without further argument.

Briefly stated, you cannot have good schools, you cannot attend church, you cannot visit your neighbor without good roads and do not think that you are not paying a heavy road tax when you have had roads for over them your hauling costs are doubled and sometimes quadrupled; your horses, your wagons and your harness are daily going to pieces. On every shirt you wear, every pair of shoes or overalls you wear there is a tax because of bad roads, for you must remember that the merchant in the rural district figures the cost F. O. B. his store, and you know he must sell everything at a higher price when he has to pay enormous sums of money for everything that is hauled to his place of business. Likewise, you do not receive as much for your farm products as you should. If a man should buy a load of corn ten miles from this town, in order to get it to market he would have to figure on hauling it to Paintsville, so you would not receive as much per barrel for your product as a man would living the same distance from Lexington or Louisville or any place where the material can be easily transported. So it is not a question of dodging a road tax, but it is a question of paying a cheaper tax and at the same time having the pleasure of good highways.

Some wise man has aptly said that "Roads rule the world—not kings nor congresses, not courts nor constables, not ships nor soldiers. The Road is the only royal line in a democracy, the only legislature that never changes, the only court that never sleeps, the first aid to the redemption of any nation, the exodus from stagnation in any society, the call from savagery in any tribe, the herald of prosperity. The Road is a uspire in every war, and when the new map is made, it simply pushes on its great campaign of help, hope, brotherhood, efficiency and peace."

In conclusion I would say that you should not forget that the majority of families in this county have either sons or relatives in this war; that they will return to their native health and will naturally expect to see some progress made. They will have seen the highway of France, Belgium and Italy; they will see the good that has come from them because the roads saved France. They will not be contented to live at home on a road where it is like being in jail and they will leave your county to make their homes

either in some town or some other county where they receive the advantages afforded by good roads. So if you want to keep your boys and girls at home, where they should be, see to it that they have good roads to town so that they can get all the benefits of this life to which they are entitled, and you will have done not only your patriotic duty, but you will have done that which every man owes to posterity, the making of a county better and a more fit place in which to live.

### WOODS

There will be church at this place the second Saturday night and Sunday in April.

Mrs. Reuben Taylor has returned home from the Marting hospital very much improved.

Miss Eva Clark, of Deephole, came up Friday to spend a few weeks with her aunt, Emma Taylor.

Miss Eva Morrison is at Mrs. Annie Burchett's.

Dow Hunter has made his return from McVeigh, Ky., where he has been working in a timber job.

George Collins has sold his farm to J. M. Goble and is moving to Dwaile. Mollie Morrison and Eva Clark were out horse-back riding Saturday.

Miss Belle Morrison and brother Ollie spent Sunday with her sister, Mrs. Lizzie Goble. SPRINGTIME.

### SHERIFF'S SALE.

I, or one of my deputies, will, on the 8th day of April, 1919, offer for sale to the highest and best bidder at the front door of the Court House in Louisville, Ky., at 10 a. m., the following described property, to-wit: Two standard rigs for boring for oil; one 20 h. p. Beesemer engine; one wood oil tank; and all the casing and tubing in wells No. 1 and 2, all of which property is now on the lands of F. R. Buesey near the forks of Little Blaine creek in Lawrence County, Ky. Levied upon, and to be sold as the property of T. N. Clark, J. B. Coghill and the Table Rock Oil Co., to satisfy three executions in my hands, one in favor of E. E. Zerkles against T. N. Clark, J. B. Coghill and the Table Rock Oil Co., which issued from the Lawrence Circuit Court

Clerk's office on the 8th day of March, 1919, for \$606.00 and \$9.80 cost; and one in favor of E. F. Franklin, the same date as the one above and against the said T. N. Clark, J. B. Coghill and the Table Rock Oil Co. for the sum of \$395.00 and \$9.80 cost; and one in favor of Lee McCowan against the said T. N. Clark, J. B. Coghill and the Table Rock Oil Co. of the same date and from the same office as set out above for the sum of \$205.00 and \$9.80 cost, each of said amounts to bear interest from the 11th day of December, 1918, and the Sheriff's commission on the said amounts and cost of advertising. The proceeds of the above sale shall be applied to each of the above named executions as their interests appear, neither having priority over the other. A sufficiency of the above described property will be sold to pay the debts interests and costs as above set out.

Sale will be made upon a credit of three months, the purchaser being required to execute a good and sufficient bond for the purchase price, payable to the plaintiffs in said execution, which bond shall have the force and effect of a replevin bond upon which an execution shall issue.

Given under my hand this, the 18th day of March, 1919.

### SOMETHING ABOUT SUNNY FLORIDA

I will tell you something about this great country, the garden spot of the United States. The thermometer registered 54 December 27, 1918. Flowers in bloom, grass green, thousands of cattle roaming over the broad acres of grazing land. English Peas in bloom. Thousands of acres of cabbage are almost ready for the market. There are opportunities here for hunters, but if you don't want to hustle and have plenty of money come and spend the winters in Florida. Hundreds of people own orange groves here and still live in the north and come here in the winter; then go back north in summer and have a good income from the grove. I prefer staying here myself as you well know or Dr. Bromley can tell you I was an asthmatic as bad as any case in the Big Sandy Valley. Am cured sound and well and don't want to take any chance on another attack. People are fine, kind, sociable and the very best of neighbors. I have made good here and this past summer has been one of pleasure. At no time was it over 99 at Orlando, Fla. I will be glad to answer any questions any of my friends may want to ask whether it profits me or not. You all know I am a Real Estate dealer and try to make a little on every deal but not enough to hurt any one. With best wishes to all my friends and the News, I am, yours truly,

"DANDERINE" FOR FALLING HAIR

Stop dandruff and double beauty of your hair for few cents.

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug store for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair stops coming out and you can't find any dandruff. Your hair appears soft, glossy and twice as thick as thick and abundant. Try it!

A PATRIOTIC DUTY

Almost as vital as that of protecting the honor of flag and country, is the duty of protecting and safe-guarding health. When strength is well-nigh exhausted and the resistive powers are reduced, then is the time disease germs are the most potent and when

SCOTT'S EMULSION

affords splendid and effectual means of offsetting the tendency toward weakness and protecting strength. The abundant tonic and unique nourishing properties of Scott's Emulsion make it a dependable agent that may be used everyday, by anyone, to protect strength.
